

CODA *friends and family*

PLEASE HELP...

I would like each CODA member to supply me with twenty (or more, if you like) names, email and home addresses of your family, friends, work colleagues etc. That's all you have to do !! If everyone does their bit we'll have an immediate database which is several hundred strong. I'll then mail merge the data and send letters and emails informing the recipient that their son, friend, work colleague, origami instructor (or whatever) is appearing in, or involved behind the scenes with, a fantastic CODA show that they would be a fool to miss out on !
